Software Developer and Project Manager with 7 years of experience in database creation and administration, coordination and implementation of software projects, user training, and multi-stakeholder budgeting. Seeking a software developer role with opportunities to learn from and grow with peers and mentors.

Technical Skills

OOP	C#, .NET, MVC, PHP
Unit Testing	TDD, integration testing, MS Test, Mocha
Databases	SQL, MS SQL, MySQL, MS Access, Salesforce
Client Side	JavaScript, TypeScript, jQuery, HTML, Responsive Design (CSS Flexbox, Bootstrap)
Miscellaneous	Git, RegEx, WordPress, Visual Studio 2017, Apache, NGINX, Pivot Tables, pair programming

Technical Projects

Multi-Level Maze	TypeScript, jQuery, Mocha, Chai: generates a random maze that a user can explore
17 Table Database	MS Access and VBA: designed and programmed to internal customer's needs
#HelpInTheCLE	Cleveland GiveCamp: WordPress, MySQL, PHP: Database cleanup and module development
Vending Machine	C# command line: CSV imported to fill a virtual vending machine with "products" to buy

EDUCATION

Tech Elevator   Sept 2018 - Present
Attending a 14-week program C#/.Net coding boot camp that focuses on OOP, pair programming, and Unit Testing.

Lehigh University – Bachelor of Arts   May 2010
Major in Political Science, Minor in Mass Communications   *Bethlehem, PA*

School for International Training – Semester Abroad   Jan 2009 – May 2009
Reconciliation and Development Program (inequality, discrimination, and political violence)   *Durban, South Africa*

LEADERSHIP AND WORK EXPERIENCE

Database Systems Analyst   Oct 2015 – Sept 2018
Jewish Education Center of Cleveland (JECC)   *Cleveland, OH*

- Developed new databases from scratch, replacing decades-old systems; carefully transitioning staff, school administrators, teachers, and parents to the new systems.
- Conducted internal client assessments to determine their critical business needs and underlying challenges, resulting in detailed system requests, work plans, and timelines.
- Designed new data-management techniques for grants management, program evaluation, school enrollment statistics, and community outreach that are sustainable for the future.

Technology Manager   Jul 2013 – Apr 2015
Repair the World   *New York, NY*

- Directed database projects from inception through daily administration: allocated budget, researched and selected vendors, built reports, and trained staff.
- Implemented, oversaw, and maintained technology organization-wide for: 30 staff and 40 full-time volunteers in five cities, including 60 computers, 54 mobile devices, 3 websites, 2 databases, and 1 file server.

Campus Systems Director and Project Manager   Dec 2011 – Apr 2013
AIPAC, American Israel Public Affairs Committee   *Washington, DC*

- Assessed and translated coworkers' database requirements into technical specifications, leading to successful departmental implementation of Salesforce.com.
- Managed and trained 15 interns during academic year, coordinating with departmental and regional supervisors.
